

DANIEL J. DE SANCTIS, PE Associate

Dan De Sanctis is a meticulous engineer who ensures Altieri's quality standards are met.

Dan joined Altieri in 2012. As an exemplary mechanical engineer, he continually applies his talent for solving complex engineering challenges for significant theatre and performing arts venues, university buildings, and museums. Dan was project manager and lead mechanical engineer for the recently completed Connecticut College Athey Center for Performance and Research at Palmer Auditorium. As project manager, he demonstrates considerable ability to coordinate and maintain internal production schedules. He conducts detailed engineering calculations and contract document production, and manages coordination with other trades and consultants.

Education

Manhattan College, 2011
Bachelor of Science, Mechanical
Engineering

Registrations & Certification

Professional Engineer-Mechanical, NY

Project Awards

Most Innovative Project Over \$100M
Architectural Engineering Institute, 2022
Glenstone Museum

Award of Merit

Architectural Engineering Institute, 2022
Glenstone Museum

Select Project Experience

130 Prince Street, New York, NY
Arts Commons Transformation, Calgary, Canada
Colby College Museum of Art, Waterville, ME
