

KATHERINE ELDRIDGE, PE, LEED AP BD+C Associate

Kate Eldridge produces clean and concise drawings while maintaining a high level of coordination.

Kate joined Altieri in 2022 with 6 years of industry experience. She has performed different functions on a variety of building types including educational facilities, libraries, art museums, sports arenas, and theater spaces. Her experience with multiple building types has allowed her to adapt to the demands of the systems and space requirements while also keeping in mind the requirements of other consultants. Kate has developed a good balance working with architects and consultants keeping the goal of completing the project in mind. She is a proactive leader who provides technical excellence, professionalism, and steadfast advocacy for clients, colleagues, and Altieri.

Education
