

May 17, 2021

Downers Grove, Ill. — *Consulting-Specifying Engineer* has announced the recipients of the 2021 40 Under 40 award. This award is given annually to 40 nonresidential building industry professionals ages 40 and younger who stand out through a mixture of personal and professional aspects of their lives. To read a profile of each winner, visit www.csemag.com/40under40.

Candidates were nominated by a colleague or mentor and judged by industry experts based on nine areas, including their commitment to leadership in their academic, professional, personal and community involvement. In the May online and print edition, *Consulting-Specifying Engineer* honors each of these young professionals, highlighting qualities that led him/her to sustained success, recent professional projects and personal achievements. Winners will be presented with their award at a ceremony in Chicago in October 2021.

“If the technical proficiency, breadth of experience and self-assured attitudes don’t impress you, then the dedication given to mentoring, the community and family certainly should,” said Amara Rozgus, Editor-in-Chief of *Consulting-Specifying Engineer*. “Now in its 14th year, the 2021 40 Under 40 winners are more creative, attentive and passionate than most professionals at any phase of their career, leading them to succeed in their respective professions.”
